*We like to think we’re a unified partnership:*
*YOU set the rules, WE ensure compliance*

Zenith American Solutions Payroll Auditing follows AICPA guidelines to ensure our clients are collecting the proper contribution amount from employees.
AUDIT SCHEDULING
We contact the employers to schedule payroll audits, including if necessary, assistance from Union Business Representatives or Fund Attorneys.

REVIEW AUDIT DETAILS
We will compare and review payroll records to confirm employer compliance with their Collective Bargaining Agreements.

PRELIMINARY RESULTS
We will work with the employer to determine audit outcomes, including employee identification, preliminary results, and invoices.

BILLING AND COLLECTION
Prepare and issue invoices to employers and monitor payment status, including past due statements, and demand letters.

FINALIZE AUDITS
Utilize and coordinate with Fund Professionals, Business Agents, and Attorneys to resolve employer disputes (if any) and collections.

Why Is A Payroll Audit So Important?
“A payroll audit looks at hours and wages reported by an employer for work that was performed. Hours and wages are compared to employer contributions, ensuring correct contributions are being received. This allows the benefit plan to work as effectively as possible.”
